TPMS SOLUTIONS FOR TRUCKS & TRAILERS

TRUCK TPMS VALVE BOX KIT

Complete kit with six OE-quality valves in multiple lengths and angles. Ideal for maintaining TPMS across diverse truck rim types and fleet setups.

x10 of each
valve stem

H5628538

HTS-T01A FIXED

Easy to install, OE and aftermarket compatible. Works with ATEQ tools, features a 433 MHz signal, advanced chip, and 24-month/100,000 km warranty.

HTS-T01A

HTS-T01B BANDED

Band-mounted, universal-fit TPMS sensor for heavy-duty vehicles. Same tech as the valve-mounted version, with easy OE-R installation—no valve needed. Programmable and maintenance-friendly.

HTS-T01B

VT TRUCK 2.0

Rugged TPMS tool for European trucks and buses. Reads up to 26 wheels, including twin sets. Features OBD module, full sensor database, Wi-Fi updates, and a 4.3" display. One year of updates included.

HATE-D091

CALIBRATED TOOL

Durable, compact tool for precise TPMS sensor and valve installation. Prevents damage from incorrect torque and supports a wide range of commercial vehicle sensor types. Built for tough workshop use.
